Arlington Heights, Illinois*

Regulations

To establish credit an applicant who is unknown to the Company is required to make an advance payment for not to exceed three months' service.

Where the cost of installation is out of proportion to the exchange revenue it produces, the subscriber will be required to pay a reasonable proportion of such cost.

Following the acceptance of the Company of an application for service, the Company assigns a telephone number, but this number is not a part of the contract and may be changed at any time at the discretion of the Company.

Under average conditions the Company requires ten days to arrange for and complete an order to install or move a telephone.

To guard against interference with the service unauthorized attachments with the telephone lines or instruments are prohibited.

For any complete failure of service, of which *notice in writing* has been sent to the Company's Local Office, and which has continued for more than twenty-four hours thereafter, an abatement of the contract charge shall be made for the period of such interruption.

The continuous use of a party line is limited to five minutes. Party line subscribers are necessarily associated on the line with others located nearest to them and using the same class of service. Mutual accommodations usual in public service of any kind, where two or more persons are jointly concerned, should be extended between party line users.

Where the service of a subscriber is temporarily discontinued and the telephone number is retained during absence on vacation, one-half the regular rental shall be charged, during such period, provided written notice of the temporary discontinuance of service is given to the Company in advance.

Bills are payable monthly, in advance, at the office of the Company. If not paid by the fifteenth day of the current month, written notice is mailed to the subscriber and service is discontinued within fifteen days thereafter. Telephone service will be reconnected when the bill is paid in full, together with the actual cost of material and labor used in reinstating the service, plus fifteen per cent for supervision; the total cost, however, not to exceed two dollars per station.

Measured service, where furnished, is billed on a monthly guarantee basis. Failure to use the minimum guaranteed number of messages in any month, or the use of messages in excess of such number, does not entitle the subscriber to any allowance in any other month.

One incoming line (one-way service) furnished only for each individual two-way flat rate line or two-way trunk line.

Not more than two joint users will be allowed on P. B. X. or individual line service; and not more than one joint user in connection with a party-line subscriber.

Four Party Service is furnished only where at least two subscribers within the limits of a single block apply for such service, or there is a vacancy on an existing circuit.

Two-party service beyond the established exchange area will be furnished only where two parties outside said area, but within one-quarter mile of each other, apply for service at the two-party rate.

Four-party service beyond the established exchange area will be furnished only when at least three parties outside said area, who are within a radius of one-quarter mile of each other, apply for service at the four-party rate.

Rural Service is furnished only where at least two subscribers are secured for each one mile of line built.

GENERAL INFORMATION

When using the telephone speak distinctly by a "mouthful" inch or more with lips close to the microphone.

Answer your bell promptly but do not answer the machine from the back while the bell is ringing. It may interfere with the signals.

To reach the operator or relay through talking, keep up the receiver and give the handle necessary tone.

Call by telephone number, not by name.

Call "Information" for names and lists.

Call "Chief Operator" to report unsatisfactory handling of your calls.

Call "Signal Check" when your telephone is out of order.

LONG DISTANCE TELEPHONE SERVICE

Station-to-station service. The long distance service is defined as a connection between any two telephones (including private branch-exchange and toll-free service) and does not encompass the establishment of connections between particular individuals or departments of private branch exchanges.

Under Station-to-Station there is charge for a message to make in all cases where a connection is established with the subscriber.

Local telephones are made between 4:30 P. M. and 4:30 A. M. on non-terminating calls when the day rate is 25 cents or more as follows:

Evening Rates—Between 4:30 P. M. and 12 Midnight, approximately one-third of the day rate.

Night Rates—Between 12 Midnight and

4:30 A. M., approximately one-fourth of the day rate.

Minimum "Evening" or "Night" rates, 25 cents.

Person-to-person service. Calls by parties to individuals are consisted of a rate of approximately one-fourth more than the standard local Station-to-Station service.

A Special Charge in addition to regular message charge is not made provided the call is completed on the day it is filed, or if it is carried forward and completed on the following day.

Appointment calls. An Appointment Call is a Person-to-Person call on which communication is to be established at a specified time.

The rate for an Appointment Call is approximately one-half more than the Station-to-Station rate but in the case of any Appointment Call where the desired station is reached, whether the appointment is made or not, the Special Charge applies in case of Person-to-Person calls that do not reach.

Message calls. Message Calls are Person-to-Person calls requiring the use of a message to convey a designated message.

The rates for Message Calls shall be the same as apply to Appointment Calls, plus any charge that may be required for the service of messages.

Message charges incurred are to be paid upon delivery of communication to the field.

Collect calls. Collect Calls are Person-to-Person calls, the charges for which are "to-receiver"; that is, to be collected from the called station, provided the charges are accepted by the person called.

The following set gives rates comprising long distance service and "Long Distance"

Speak Distinctly

When using the telephone speak distinctly, with lips not more than one inch from the mouth-piece.

Telephone Operating is a Desirable Occupation for Young Women

The Work is Permanent, Interesting and Near Home

OUR OPERATORS are well paid. They like their work and associates. Vacations (with pay) are given each year. A liberal Benefit Plan is provided.

Come to the Telephone Office and Talk It Over with the CHIEF OPERATOR

Illinois Bell Telephone Company

Reach Everywhere via Bell Lines

CITY boundaries and state lines are no barriers to the long distance telephone, which reaches more than 70,000 communities.

THE problem of the Illinois Bell Telephone Company to-day is the one of growth. To take care of demands for new service we must build new plant constantly and this requires new capital in large amounts. To obtain such capital requires assurance of satisfactory return.

In the Bell System are more than 15,000,000 telephones connected for service by 35,000,000 miles of wire. We stand ready, day or night, to put your home or office telephone in connection with any one of these.

Long distance is the modern, efficient way.

ILLINOIS BELL TELEPHONE COMPANY

BELL SYSTEM

One Policy - One System - Universal Service

Two-Fisted Men

OUR obligation as a public utility requires that we make every effort to furnish service to all who apply. In doing this we constantly add to the value of our service to old subscribers by extending their range of communication. Cost levels to-day are much higher than in the past and result in more expensive plant construction, thus increasing our average capital investment per telephone, upon which a fair return in interest and dividends must be earned.

EACH telephone is connected to the central office by two tiny wires. These wires are a part of a system of cables, coils and other delicate apparatus, which must be kept in careful adjustment.

The job of building and maintaining this equipment is done by two-fisted men—men who think in terms of never failing service. When they come into your home or your office, you find them anxious to do their work quickly, efficiently, courteously and neatly.
