

Wheeling Historical Society and Museum Newsletter

Summer Is Almost Here

June 2016

Volume 25, Issue 4

The Wheeling Historical Society and Museum celebrates the link between the past and the present. The museum is a cooperative effort of the Village of Wheeling, Wheeling Park District, Indian Trails Public Library.

## HAPPY FATHERS DAY

Gathered round Guard Penny Scanlon for an opening day greening were (girls, background l. to r.) Marlene Schmidt, Naomi Barrie, Debbie Saunders, Lori Klaus, Gail Danielson, and Barbie Cox; (boys) Billy Olson, Michael Schwert, and Bobby Koeppe; and (young ladies in foreground) Laura and Sandra See.

### Pool Opening Makes Big Splash

"The sun was shining on the sea, shining with all his might..."

And that's the way it was Saturday, June 12th, at Wheeling Community Pool when it opened for the 1965 swim season. In spite of a cool breeze, the pool was well populated during the afternoon by early purchasers of season passes and daily fee l. D. cards.

Clearing of the pool and readying of filter equipment was done by volunteers Al Martin, Frank Wojek, Vern Schuler, and Merle Willis, all members of the Board of Directors of the pool, the week prior to the opening.

Members of the Board, all of whom serve without pay, were hosts Friday evening to pool bondholders for a pool-side presentation of this year's plans and personnel and a brief look at the financial picture.

This year's pool director is Richard Schuler; concession manager is Elroy Schuler (to quote Richard: "no relation, but I like the name"). Head instructor is Kathy McCall; guards are Betty Lawrence, Penny Scanlon, John Bauer, and Robert Schuler. Mary Kay Myers and John Kunowski are this year's locker room attendants.

Treasurer Oscar Tarelman stated the pool would need a gross income of about \$20,000 this year to meet operating expenses, pay bond interest, and make hoped-for improvements such as landscaping of the area southeast of the bathhouse to provide picnic facilities.

Handling of the concessions by the pool association is expected to yield two benefits, better service and a higher return to the pool than the machines previously used offered. Sugar Bowl ice cream will be available in cones, sandwiches, and bars. Non-carbonated grape and orange drinks, coffee, hot dogs, and candy bars will complete the bill of fare.

Friday evening teen-parties are again being contemplated with games, prizes, and dancing to live combos.

Board members at Friday Night's meeting included Vice-President Audrey Christianson, Secretary Donna Nystrom, Treasurer Oscar Tarelman, Personnel Manager Frank Wojek, Pool Director Vern Schuler, and Construction and Maintenance Supervisor Merle Willis. President James Stavros and Building and Grounds Supervisor Al Martin were unable to attend because of previous commitments.

Season passes and l.D. Cards can still be purchased at the pool office. Registration for swimming lessons, the first series of which starts June 21st, may also be made there.

Come on in! The water's fine!

have a picnic! at home or away with cool keeping **STYRENE FOAM Insulated COOLERS**

**Barrel Shaped Gallon JUG 97¢**  
Keeps liquids hot or cold! Screw-on cover, capped spout.

**A Message From The President — Terry Steilen**

From The Presidents Desk – June 2016

Thank you for your confidence in allowing me to be the president of the Historical Society for the next two years. I've got some ideas for new things, and will be sharing them with you over the next few months. First, however, and most importantly, we need new members. We need help, especially for Lollipop Lane. Please ask your friends, family, and neighbors if they would like to be members.

Next, I have a long term goal that I have always desired. Our Church's steeple was hit by lightning in the late 20's to early 30's. It was destroyed, but luckily rebuilt a few years later. Unfortunately, in 1958 the steeple was hit again. This time, it was never rebuilt. I would like to undertake this effort to get it rebuilt, as a two year project. Here again, we will need a lot of help. I do not know all of the steps that need to be taken. I hope that the membership can help with some guidance and support. Architects, designs, permits, approvals, FAA, Village, Park District, etc. needs to be dealt with, and there will probably be a cost associated with doing it. The first thing we need to do is create a TODO list So if you can help, or know someone that can help and wants to be involved with parts of this effort, please let me know as soon as possible.

Thank you again for your support,  
Terry Steilen

**The Curator's Corner — Patti Steilen**

Thanks to all our members for their help and participation with the N.E.I.L. meeting. It was a great success. Especially all the kitchen help. They were fantastic.

Thank you to the Park District employee who helped me clean the carriage house.

We made a little more space by hanging the bicycles from the rafters and moving some of the farm showpieces from the center of the room. There is a little more space on the middle of the floor. It's a little easier to move around now. Many of the guests from the NEIL meeting were very impressed with our museum.

A reminder that there is no meeting in July. The Museum is open with the exception of Fathers Day and the Fourth of July. We can still use help for Sundays to sit. Contact me at (847)924-4473 if you are available for a particular Sunday.

It's back to work now that we have hosted the NEIL meeting. Hopefully we can get back to scanning pictures and files and categorizing all our pictures. Our hope is to have everything scanned to preserve all our records in case any disaster should happen like the flood of the 1990's.

We will be receiving some maps drawn by Mr. Denoyer of World War II from Larry Boller of Minnesota. His wife is a past resident of Wheeling and the maps were found at a yard sale there.

**Q:** Why do men's clothes have buttons on the right while women's clothes have buttons on the left?

**A:** When buttons were invented, they were very expensive and worn primarily by the rich. Since most people are right-handed, it is easier to push buttons on the right through holes on the left. Because wealthy women were dressed by maids, dressmakers put the buttons on the maid's right! And that's where women's buttons have remained since.

### Ring Sealed Their Bond

In 1936, I was 14 and had learned the fundamentals of woodworking in school. Not having been a very good student in the three R's, I found great pleasure in looking forward to woodworking or shop class. One day, while talking with my father, I told him my desire to have a table saw. The following Sunday, we found a used saw in the "for sale" ads in the newspaper. Dad and I drove over to the address listed. I was sure it was what I had in mind. Dad and I talked as we went out to the car. Dad went back to talk with the saw's owner as I sat in the front seat. I saw my dad take off his onyx ring and give it to the man. Dad eventually paid off the saw and got his ring back. He gave me the ring on my 21st birthday. I never spoke of the incident with Dad, but I always showed him how much I loved and respected him.
